

What's different in the 2040 Metropolitan Transportation Plan Update?

The MTP documents the planning process carried out by Eastgate and its partners, identifying strategies and projects to maintain and improve the transportation system over a twenty-year horizon. The MTP, per federal law, must include both long-range and short-range program strategies that lead to the development of an integrated intermodal transportation system that facilitates the efficient movement of people and goods.

Changes from the 2013 MTP:

Updated Ohio Development Services Agency and American Community Survey statistics for Population, Age, Racial Diversity, English Proficiency, Migration, Poverty, Household Income, Per Capita Income, Housing, Travel Patterns, & Workforce Patterns

Vision: To strengthen the established transportation network through preservation, efficiency, collaboration, and modal choice.

Goals

Economy: Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency. Promote consistency between transportation improvements and planned growth and economic patterns.

Mobility: Increase accessibility and mobility for people and freight.

Resilience: Protect and enhance the environment. Promote energy conservation. Improve quality of life for the community.

Safety: Increase the safety of the transportation system for motorized and nonmotorized users.

System Performance: Emphasize the preservation of the existing transportation system. Increase the security of the transportation system for motorized and non-motorized users. Promote efficient system management & operation.

Technology: Enhance the integration and connectivity of the transportation system of all modes.
