

LPA ADA/504 Survey Question Examples

The ADA/504 regulations require any entity with 50 or more employees have a written/published plan. Entities with less than 50 employees still need to accomplish the work of correcting their deficiencies and making their services accessible, but aren't required to write the work up in a plan.

1. How many employees does your agency have? (on average, including temporary or part-time workers-if that number varies summer vs. winter, etc. just provide overall average or split it out by season and then we can take a look at it if it is close to the threshold)
2. How many buildings and/or properties are you responsible for where it is reasonably expected that members of the public would normally visit in order to take part of a program or service? (for example, parks, hospitals, libraries, community buildings, court houses, public offices, etc.)
3. How much state or federal funding have you received in the past 3 years? (This may help down the line determine who to assist first with their compliance. As a general rule those to receive the most money will likely be the entities to review first.)
4. How much state or federal funding do you plan to request in the next 3-year period?
5. Do you have an existing curb ramp policy?
6. For those responsible for assets in the rights-of-way: do you routinely include curb ramps, sidewalk improvements, & accessible pedestrian signal heads into your projects?
7. Do you have a request and/or complaint process in place for ADA items and/or requests when received from members of the public? Is it listed on your website? Is it posted conspicuously in public places?
8. Has your agency ever completed an ADA Self-Evaluation? If so, when? And has it ever been updated?
9. Has your agency ever completed an ADA Transition Plan? If so, when? And has it ever been updated?
10. Does your entity already have an asset inventory or data collection system?

Local Public Agency ADA/504 Survey

The ADA/504 regulations require any entity with 50 or more employees have a written/published plan. Entities with less than 50 employees still need to accomplish the work of correcting their deficiencies and making their services accessible, but aren't required to write the work up in a plan. This survey is being conducted at the request of ODOT Central Office. For any questions or assistance, please reach out to Ed Davis (edavis@eastgatecog.org).
